Dear Golfers and Guests,

For the second time, our Association has the honor of hosting senior golfers from many European countries. Our first experience of organizing such a big golf event came in 2017 when ESGA granted us the organization of the Seniors 55+ Cup and Championship tournament.

I think some of you were present during the 2017 tournament and I'm sure you have good memories. In 2024 we will do our best to make our Masters 75+ and Masters 65+ feel comfortable in Poland.

The tournaments this time will take place on two top Polish golf courses with great infrastructure: Sand Valley Golf Resort and Mazury Golf & Country Club.

Because of the increasing amount of players (300 golfers are expected to take part) and having only two golf courses, ESGA has asked us to extend the tournament by one day.

That means the Masters 75+ will start and end the competition one day before the Masters 65+. It will be a common opening ceremony (June 30), but a separate closing ceremony.

Players in Masters 75+ must arrive on June 29, while Masters 65+ can arrive one day later.

All players should stay at a hotel on, or near, the golf course. Players in the Masters are recommended to stay at Sand Valley apartments and villas. Players in the Super Seniors Championship should also stay at Sand Valley apartments and villas or the nearby hotel Focus in Elblag. Players in the Super Seniors Cup will stay at Anders Hotel.

Anders Hotel is the main tournament hotel. The opening ceremony and the closing ceremony for the Super Seniors will be at this hotel. The closing ceremony for Masters will be at Sand Valley Golf Resort.

This time we would like to show you another famous region of Poland, with lots of lakes, forests, and historical places. I am sure you will have a fantastic time seeing the many interesting places the region has to offer, we've prepared some real gems to show you.

For your accommodation, we have chosen some of the best hotels in the area with wellness services also available. We are confident that the chosen accommodation partners will exceed expectations, along with the Polish Senior Golf Association with engagement from Provincial and city authorities as well as with help from the Polish Golf Union will do the best to satisfy all participants of this great event.

TRANSFERS

Please keep in mind that all the transfers need to be preordered and are only available from Gdansk, that will help us avoiding unnecessary issues, the deadline is June 1st.

Traveling by car to Poland is really comfortable, our country is located in the heart of Europe and we're suggesting the following options.

TO POLAND BY PLANE

Lech Walesa airport, Gdansk, this is the closest and one of the best airports in Poland, it's well connected with the whole Europe. The journey shouldn't take more than 50 minutes to Sand Valley and 90 minutes to Hotel Anders.

TO POLAND BY CAR

Poland is located in central Europe which means it's easily accessible from a wide range of countries by car..

IF YOU'D LIKE TO VISIT US BY FERRY,

SAND VALLEY GOLF RESORT

Sand Valley's Championship Course extends over 80 hectares of the picturesque Polish countryside. Rated by Golf World as A TOP 100 Course in Europe it is the Home for the Lotos Polish Open of 2013 and 2014 (a Pro Golf Tour event). The resort offers an 18-hole championship course (par 72), 6 holes par 3-course, a roofed 20-bay driving range, and a large practice putting green.

The Tilander-Ristola's co-designed Inland Links layout offers wide rumbling fairways and challenging green sites that are the foundation for an exciting round of golf. Everything is tied together by the vast waste bunkers, clever routing, and 18 memorable holes that all have their own story to tell.

ACCOMMODATION

Players who will compete at Sand Valley Golf Resort will be based on-site at Sand Valley's Luxury villas and Pelican apartments. Staying onsite will perfectly complement the tournament experience with each unit having access to swimming pools, jacuzzi, and saunas.

All of our Villas and Apartments are conveniently located next to the 1st tee and the Clubhouse – they accommodate 2 to 14 people. The onsite bar and restaurant are all within a very short walk.

MAZURY GOLF & COUNTRY CLUB

Championship golf course (par 72). The project field was made by one of the oldest companies in the world for golf course architecture - Hawtree Ltd. in Great Britain with Martin Hawtree at the helm. The company was established in 1912 and since then designs, builds and modernizes golf courses. Today Hawtree Golf Course Architects, has about 750 projects on their account. And the project for the golf course Mazury Golf & Country Club was the first work of Hawtree Ltd., in this part of Europe.

The basic idea was to use the designer's extraordinary beauty of Warmia landscape without undue interference in nature. The variety of terrain of the golf course Mazury Golf & Country Club, and its unusual location of the property is very interesting for the players - both experienced and beginners. The field is perfectly adapted to the level and sophistication of players. Thanks to numerous natural and artificial barriers, the golf course Naterki is one of the most interesting, but also most difficult locations in Poland.

LOCAL ATTRACTIONS

RESIDENCE OF THE POLISH KINGS

The Castle of the Teutonic Order in Malbork 13th-century Teutonic castle and fortress located in the town of Malbork, it is the largest castle in the world measured by land area and a UNESCO World Heritage Site.

ELBLAG CANAL

The Elblag Canal was considered as one of the seven wonders of Poland.

This world class example of water technology links the western Mazurian lakes with the Vistula Lagoon and is today a popular tourist route. It was designed by the engineer Jakob Georg Steenke at the beginning of the 19th century thus establishing a trade route between East Prussia and the Baltic Sea.

The entire length of the Elblag Canal is 115.6km. The originality of this waterway is the way that it overcomes the difference in levels totalling nearly 100m – with the help of locks and inclines. The latter have an arrangement of rails with water driven pulling mechanisms.
